

Nanotechnology Experiences for Students and Teachers (NEST) - for Teachers

Funded by National Science Foundation, the Nanotechnology Experiences for Students and Teachers (NEST) is an immersive two week program for high-school teachers that provides:

- Research experience, faculty mentoring, and knowledge of careers in nanotechnology
- Hands-on Laboratory experience in inquiry-based science
- Participant-designed teaching modules
- Connection to a professional network of teachers

Teachers will:

- Receive up to \$4,000 via stipend, supplies, and travel
- Recruit your students to participate in NEST student program
- Earn professional development credits

Program Dates: July 9-July 20, 2018
